

ACRYLITE UV filtering mar resistant (OP3 MR) (.118")

ACRYLITE® UV filtering mar resistant (OP3 MR) sheet combines abrasion and chemical resistance with UV filtering. It protects art from UV light while protecting the acrylic from scratching and the abrasive effects of chemical cleaners. Easily cleaned with common household cleaners, it resists scratching and the dulling effects of alcohol and ammonia cleaners.

ACRYLITE UV filtering non-glare (OP3 P99) (.118")

ACRYLITE® UV filtering non-glare (OP3 P99) sheet offers UV protection with a matte finish for glare-free viewing and enduring enjoyment.

ACRYLITE non-glare (P99) (.118")

ACRYLITE® non-glare (P99) sheet is designed to minimize glare and reflection and maximize the unhindered viewing of framed artwork and prints. This special matte finish shows off the art from almost any angle under typical lighting conditions.

ACRYLITE framing grade (.090" or .118")

ACRYLITE® framing grade sheet is the only acrylic framing grade product that's guaranteed defect free or your money back. It's an exceptional general-purpose glazing for cherished memorabilia, photographs and prints as well as for valued artwork, and is used by museums and galleries for both indoor and outdoor framing.
